INDUSTRIAL LIGHTING

A dramatic scene featuring a glowing blue fist and a flaming fist colliding in a dark space with falling ice. The blue fist is on the left, surrounded by water splashes, while the orange and yellow flaming fist is on the right, with sparks flying. Ice cubes are falling from the top. The background is dark with some light particles.

SPOTTUNE

WIRELESS SOUND SYSTEM

OMNI TRACK

A wireless smart speaker with a discrete design providing remarkable sound. With omnidirectional radiation reaching 360 degrees, 3D acoustic design and a powerful 4-inch driver, Omni guarantees superior room-filling sound. As it's compatible with 3-phase light track systems, Omni Track gives you a true plug & play experience and takes less than 2 minutes to install.

OMNI CORD

For high ceilings with standard outlets, Omni Cord can be installed with a cord solution too. The speaker can be suspended from the ceiling to a desired height just as a pendant light.

OMNI RECESSED KIT

For ceilings with recessed light installations and no tracks, Omni comes in a recessed version. The speaker is installed and powered just as a recessed light or spot.

Accessory; speaker is not included.

OMNI SUB

A wireless subwoofer designed to be set up in minutes and used in combination with Spottune Omni speakers.

A closed box with a 10 inch woofer, offering bass augmentation and low frequencies.

Range up to 50 – 100m (approx. 160 – 330ft)

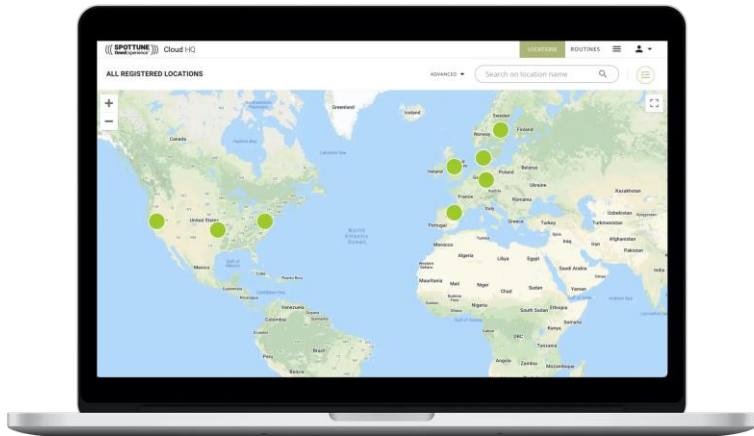

OMNI STREAM

The central transmitter in the Spottune system streams audio from a great variety of inputs and also transmits and broadcasts audio to all the speakers.

Plays audio from AUX, USB, Microphone and Cloud controlled inputs. The Stream can transmit music to all speakers in up to two music zones through its wireless, digital audio broadcasting technology.

OMNI CLOUD

The Spottune Cloud Service is the effortless solution that lets you have full control over all your locations from your HQ.

- Manage individual sound zones or bulk edit them.
- Manage music input across locations from your HQ.
- Enterprise solution for music, promotion and announcements.

PLUG & PLAY

Spottune Omni is compatible with track lighting systems - it's powered by the tracks and can be mounted without using any tools.

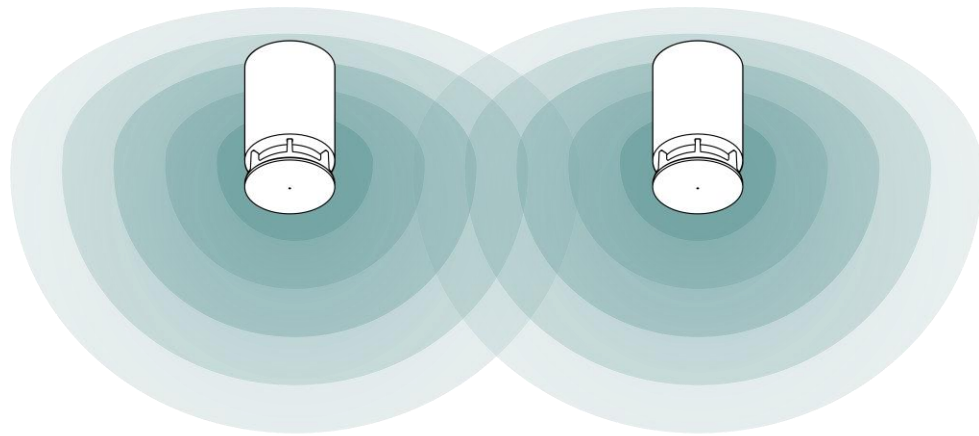

Since the speaker fits the existing infrastructure, its use saves hefty installation cost and doesn't require long, bulky cables.

When powered up, the speakers are automatically paired with their music transmitter and ready to play in minutes.

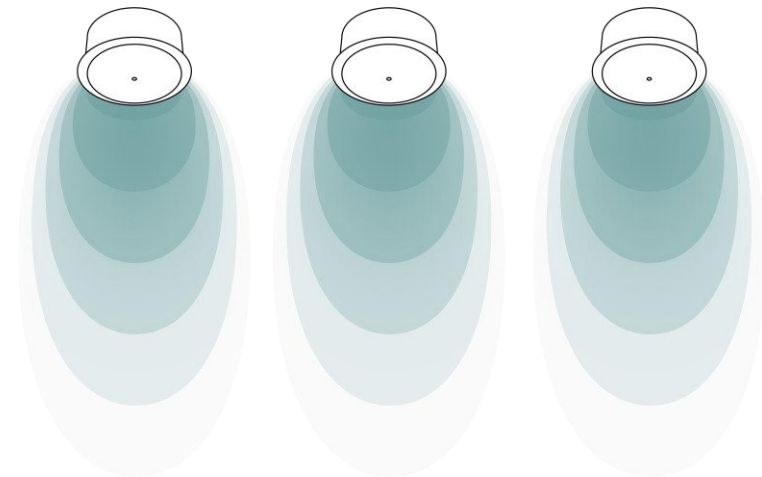

Omni offers a great level of flexibility in terms of its effortless relocation, making it a lasting product for your business.

OMNI SOUND

SPOTTUNE OMI

CLASSIC SPEAKERS

AWARD-WINNING DESIGN

The acoustic design of our Omni speaker is specially made for retail stores and areas where people move around a lot.

It has a simple, clean cylindrical shape, designed to fit into any existing light installation. The unique design provides a sound experience that's synchronised and clear all around the room.

REFURBISH PROGRAM

REFURBISHING AND RECYCLING OF LIGHTING FIXTURES

BACK2LIFE is an innovative light fixtures refurbishing and recycling program exclusive to Eclairage On Light. We offer our customers the possibility to refurbish or recycle its products when the expected lifespan is reached.

Thereby, the lighting fixtures can be returned for refurbishing or recycling when they are no longer covered by the manufacturer's warranty.

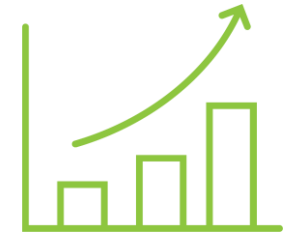

It is simple, intelligent, economical and truly ecological.

EXTEND THE LIFE OF YOUR OUTDATED LIGHTING SOLUTIONS

Save Money

Plan the modernization of your lighting fixtures with us.

Efficiency

Improvement in net energy efficiency (lm/W) up to 50% compared to previous solutions.

Light Quality

Guarantees more comfort in the workplace, optimized illumination and better color rendering.

Sustainable Renovation

Bring your lighting systems up to date and make a valuable contribution to your company and the environment.

FROM OLD TO NEW

Old lighting fixture
